### EXPERIENCE

#### **Jamstack Developer at Dav.IO**

*August 2020 - Present*

- Develop websites for medical professionals using Gatsby and Contentful. The workflow leverages the speed and security of the Jamstack architecture.
- Occasionally assigned to custom WordPress projects.

#### **Front-end Developer at Statbeat**

*January 2020 - March 2020*

- Added client-side features to the company's web application.
- Refactor legacy React code.

#### **Back-end Developer at Statbeat**

*October 2018 - May 2019*

- Migrated a legacy web app from a Heroku managed server to a Digital Ocean VPS.
- Updated project dependencies.

#### **Trainee at Iona.Studio (former Coders for Hire)**

*August 2018 - October 2018*

- Introduced to frameworks and tools including Angular, SCSS, Git, and GitHub.
-
