DISC Personality	D.I.S.C. : 30-10-21-39

Work Experience:

- **Jamstack Web Developer at Dav.IO**
  August 2020 - Present
  Utilizing the Jamstack architecture to create fast, secure, and scalable websites. Primary technologies used are: Gatsby, Contentful, Sanity, and Netlify.

- **Front-end Developer at Statbeat Oy**
  February 2020 - March 2020
  Improved existing ReactJS codebase of the company's web app as well as adding new features as needed.

- **Freelance Content Writer**
  June 2019 - January 2020
  Wrote web content for various clients. Industries included cloud services, van rental, gardening services, cosmetic surgery, and marriage counseling.

- **Back-end Developer at Statbeat Oy**
  October 2018 - May 2019
  Full-stack web development using technologies and frameworks for efficient and secure deployment. Some responsibilities include dev-ops functions.

- **Web Developer Trainee at Coders For Hire**
  August 2018 - September 2018
  Front-end web development using technologies and the Angular framework for creating pixel-perfect sites based on PSD mockup.

- **Freelance Copywriter**
  January 2017 - Present
  Direct response copy, sales email, product description, and website content creation.

- **Freelance Content Writer**
  October 2015 - February 2018
  Wrote articles for various clients. Topics included activated charcoal, relationship advice, skin care, modular elevators, solar panel equipment, consumer electronics--among many others.

- **Data Encoder at Provincial Government of Lanao del Norte's CBMS**
  February 2008 - January 2015
  Encoded household survey data into a database using CBMS's proprietary software.
